

## Type H2

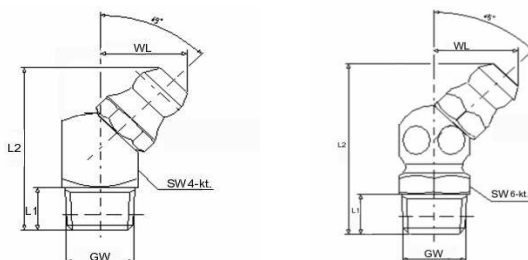

## Hydraulic-Type Grease Nipples

- according to DIN 71412
- angled version B / 45° / 67°
- optionally available with square or hexagonal body
- standard versions according to DIN are made of steel, zinc-plated and passivated, head case-hardened
- for further types and materials, please see table, or upon request

SW spanner size  
L1 thread length  
L2 total length  
WL angle length  
GW Thread  
(all measures in mm)
